2-Day Programme

IOT FOR DIGITAL SUPPLY CHAIN

Executive Education

Managerial

List of Companies that SIPMM supported :

IOT FOR DIGITAL SUPPLY CHAIN

Participants will understand the key supply chain operations suitable for IoT applications and be able to develop a roadmap for digital supply chain, as well as understand the key success factors for adopting digital supply chain.

Programme Outline

-  Technologies for Transforming Supply Chains
-  Key Supply Chain Operations
-  Roadmap for Digital Supply Chain
-  RFID Technology for Digital Applications
-  IoT Applications for Warehousing
-  IoT Applications for Transportation
-  IoT Applications for Procurement
-  Risks and Challenges of IoT Applications
-  Industry Cases for IoT in Supply Chains
-  Key Success Factors for Digital Supply Chains
-  Practical Exercises on IoT for Supply Chains

2 - Day Programme

Time: 9.30am to 5.30pm

Venue: SIPMM @Trade Association Hub

Price: \$880 (Member) | \$980 (Public)

Overview

This programme equips participants with the essential knowledge of how Internet of Things (IoT) can revolutionise supply chain with operational efficiencies and organisation growth.

The programme is facilitated by an expert Trainer, who has extensive years of experience holding leadership positions in supply chain. The training session is expected to be lively and interactive, interspersed with exercises on IoT applications for digital supply chain.

Who should attend?

Managers, Executives, Supervisors, and those who are interested in understanding how IoT can revolutionise supply chains from the following industries or sectors.

Programme Levels

IoT For Digital Supply Chain

Accredited Sustainability Professional (ASP™)

The Accredited Sustainability Professional (ASP™) designation is a professional certification conferred on professionals and certifies the holder's vast Experience, Skills and Competence in the profession.

The ASP™ is jointly awarded by the Logistics Institute of Singapore and Singapore Institute of Purchasing and Materials Management, and is recognised as an accredited qualification for Chartership.

Accredited Sustainability Professional (ASP™)

About SIPMM

Background and Publications

Singapore Institute of Purchasing and Materials Management (SIPMM), is the nation's professional body for the LPS sector - the sector which includes professionals in Logistics, Procurement and Supply Chain. Since its founding in 1972, SIPMM has trained over 100,000 professionals through its comprehensive suite of Qualifications and Programs across the region which includes Multinational Firms, ICT Conglomerates, Governments, and the Armed Forces.

SIPMM is recognized for developing the Official Singapore Purchasing Managers' Index (PMI) in 1998, and the Official China PMI in 2002. The Official Singapore PMI is the key barometer of the Singapore Manufacturing Economy, while the Official China PMI is widely regarded as a reliable indicator of the China Manufacturing Economy.

SIPMM graduates regularly publish professional articles relating to logistics and supply chain management. The publications cover contemporary issues that are relevant and crucial to the LPS profession. They include critical areas of global importance, such as disaster logistics, cold chain logistics, warehouse hazards and risks, supply chain sustainability, procurement fraud and adoption of digital technologies.

- Key Success Factors for Logistics Integration - Tan Wei Seng
- Key Strategies for Logistics Cost Reduction - Liaw Chin Thean
- Major Considerations for Energy Procurement - Joanne Chin Shel Weh
- Tools and Techniques to Rationalise the Supplier Base - Nur Farizah Omar
- Key Benefits by Integrating Blockchain and AI Technologies - Jayana Das
- Integrated Technologies for Global Distribution Centers - Lee Wen Kien
- Best Practices for Food and Beverage Warehousing - Ang Kok Chai
- Important Considerations for Healthcare Warehousing - Chew Chee Kien Louis
